

## Student Job: Strategy Artificial Intelligence & Communications (f/m/div)\*

### Job description

Are you passionate about communication but also nurture a keen interest in Technology? Would you like to join the international environment of a future-oriented company and dive deeper into the topic of Artificial Intelligence? Then this is the perfect opportunity for you! In this student job you are able to combine communication and technology and support our team and partners with AI related story-telling and communication in different formats. Our team is agile, young and vibrant – we foster Infineon's AI maturity and interact with a multitude of top internal and external AI stakeholders on topics like start-ups, innovation, co-creation, use case ideation and strategies to make the world easier, safer and greener! Interested now? We are looking forward to your application!

In your new role, you will:

- **Support efforts of strategic importance in our AI initiative:** AI ideation workshops, AI use case valuation, AI tooling and infrastructure topics
- **Co-create and publish inspiring AI content** for our internal audiences, i.e. business and technical experts as well as the managerial level (e.g. in presentations, articles, videos, blogs)
- **Facilitate the interaction with our internal and external innovation ecosystem**, e.g. on start-up cooperations, AI hackathons and corporate AI partner platforms

### Profile

You are best equipped for these tasks, if you:

- Are **studying Business and/or Innovation Management, Entrepreneurship, Communication Design, Computer Science, Artificial Intelligence, Data Science** or something similar
- Possess a **good knowledge of AI related terminology and applications**
- Are **experienced in web design, web programming and desktop publishing**
- Show **excellent communication skills in German and English**

Please attach the following documents to your application:

- CV in English
- Certificate of enrollment at university
- Latest grades transcript
- High school report
